Deputy Manager - Bioinformatics at Premas Life Sciences and pursuing part-time Ph.D in biotechnology under Dr. Prachi Srivastava
Ph.D topic: Genetic variant profiling to establish pharmacogenomics and its relationship against neurodevelopmental disorder: A way to personalized medicine.

Vishal brings 7 years of work experience and was previously associated with companies like Cloudnine Group of Hospitals, Redcliffe labs, JIIT Noida, and ICMR. He specializes in analyzing and interpreting Next Generation Sequencing (NGS) data with a focus on clinical and research-based applications. He holds a Master's and Bachelor's degree in Bioinformatics from Jaipur National University, which has provided him with a strong academic foundation in the field.

Vishal's passion for bioinformatics, combined with his technical expertise, makes him a valuable asset to the scientific community, and he is excited to share his knowledge and insights with fellow professionals at this conference.
